Section 16-609. – Live entertainment permit.

(a) Purpose. The purpose of this section is to provide regulations which govern the provision of live entertainment at commercial establishments while protecting the quiet enjoyment of adjacent properties.

- (1) A live entertainment permit is required for all new and existing restaurants, bars, cocktail lounges, or other permitted commercial establishments to provide or use the following:
 - a. Outdoor live entertainment with or without amplified sound; and
 - b. Indoor live entertainment with amplified sound.
- (2) A live entertainment permit is valid only for the specific establishment, location, and operator of establishment to whom it is issued.
- (3) A live entertainment permit is not required for conducting a special event in accordance with section 16-718, which requires a permit for temporary uses.

- (4) Live entertainment is accessory to the principal use of the establishment and cannot be a principal use for all or portion of the establishment, such as a concert or night club use.
- (c) Permit required; submittals. Applications for a permit and renewal of a permit under this section shall be made to the building division on a form provided for such purpose by the city, and shall include, along with any other such information deemed reasonably necessary by the reviewers to implement and enforce the provisions of this section, the following:
- (1) The applicant shall submit the application for live entertainment with an application fee and performance bond in amounts as set forth in the city's fee schedule;
 - (2) The name, location, and mailing address of the property owner and tenant (if applicable) proposing to use or provide live entertainment;
 - (3) The name, mailing address, and telephone contact information of the applicant and the written authorization of the property owner(s);
 - (4) A location plan indicating the location of the live entertainment, stage/area for entertainment, speakers, and/or location of any other equipment/facilities that will be used as a part of the live entertainment activities; and
 - (5) A sound management plan which sets forth the methods to be utilized to ensure compliance with the noise limitations set forth in this Code and any other requirements set forth in this Code or the city's Standard Operating Procedures (SOP) for live entertainment permitting (if adopted by the development and neighborhood services department).
- (d) Transferability. A live entertainment permit may be transferred in accordance with the following provisions:
- (1) When a sale or change in ownership occurs to an establishment that has an existing valid live entertainment permit, a request to transfer the permit may be made with the new business tax receipt to the planning, engineering and gis division;
 - (2) The transfer request shall not include any proposed changes to the previously-approved sound management plan. If changes are proposed, the applicant shall apply for a new live entertainment permit;
 - (3) The performance bond as required by this section shall be provided by the new holder of the business tax receipt; and,
 - (4) Upon the issuance of any new live entertainment permit, a new twelve-month period shall commence in accordance with subsection (f) below.
- (e) Standard conditions of approval for all permits. The following are standard conditions of approval for all live entertainment permits.
- (1) Sound generated by or emanating from establishments that are using or providing live entertainment shall comply with the noise limitations set forth in this Code;
 - (2) Hours of live outdoor entertainment shall not extend beyond 10:00 p.m. unless:
 - a. Specific approval is received through the application and issuance of a special events permit in accordance with section 16-718, special events; or

- b. The applicant submits a sound management plan, certified by an acoustical engineer, which verifies that sound levels generated will remain within the standards set forth in this Code and further complies with the SOP (if any) for live entertainment permitting. A copy of the adopted SOP (if any) shall be kept on file with the city clerk and shall be available for public inspection during normal business hours.
- (3) Such other conditions of approval to ensure the live entertainment does not negatively impact the quiet enjoyment of adjacent properties.
- (f) Standards for review. When considering applications for a live entertainment permit, the city shall consider the following:
- (1) The amount and type of screening, buffering, or separation between the establishment and adjacent properties, with reference to type, dimensions, and character, shall be fully and clearly depicted on the submitted plans and must be adequate to mitigate sound impacts upon adjacent properties; and
- (2) The land and buildings which are the subject of the application must be of sufficient size, shape, type of building, and the like to ensure the proposed live entertainment can be accommodated without negative impact on adjacent properties.
- (g) Issuance, renewal and revocation.
- (1) If the city issues a live entertainment permit or renews a live entertainment permit, the permit shall be in effect for 12 months from the date of issuance or renewal by the city unless earlier revoked as stated herein.
- (2) After 12 months, the permit or renewed permit shall expire and the commercial establishment must apply for a new permit or a renewal of the permit. A renewed permit may be granted by the city if there are no changes to the conditions for granting the original permit including without limitation no changes in the sound management plan. If the performance bond submitted with the previously issued permit has expired, a new performance bond must be submitted with the application to renew. If a live entertainment permit expires and a renewal is not sought within thirty (30) days, the city will return the performance bond to the commercial establishment.
- (3) The city may revoke a live entertainment permit if the commercial establishment violates any terms and conditions of the permit, the sound management plan, this section, or is found in violation of other provisions of this Code which relate to the operation of the commercial establishment. If the city revokes a live entertainment, it shall send written notice to the commercial establishment of the revocation and may retain the performance bond if the grounds for the revocation include a violation of the sound management plan. The commercial establishment may appeal the revocation to the city's special magistrate within twenty (20) days of receipt of the notice of revocation. Such appeal will then be heard within thirty (30) days of the city's receipt of the appeal and notice of the hearing will be sent to the commercial establishment by regular first class mail. A commercial establishment whose live entertainment permit is revoked (and such revocation upheld if appealed) may re-apply for a new live entertainment permit six (6) months after the date of revocation with sufficient showing that all grounds for the revocation have been corrected.

(h) Enforcement. The provisions of this section may be enforced through standard code enforcement procedures and the alternative citation procedures provided in Chapter 2. If an establishment provides live entertainment without a permit or in violation of an establishment's permit or in violation of the requirements of this section, the violation is deemed irreparable in nature and the violator may be required to pay a fine not to exceed \$5,000 per violation. Each day such a violation continues to exist shall be deemed a new violation. The city may retain the performance bond, in whole or in part, to pay any fines or costs assessed if the commercial establishment is found in violation.

No outdoor commercial sales, display, retail activities, or other similar commercial business activities including, but not limited to, the storage of goods and materials, shall be permitted at any time unless authorized by this section, other specific provision of this Code, or by special event or temporary use permit.

(2) Outdoor storage, display, and/or sales may be permitted in the Commercial Intensive (CI) zoning district where such outdoor storage, display, and/or sales are customarily incidental to the principal use of the permitted commercial business and the outdoor storage, display, and/or sales are permitted by existing special exception criteria governing the principal use. There shall be no outdoor storage, display, or sales by any person operating or conducting a commercial business which is different or distinct from the permitted principal use at such location.

(3) Outdoor storage and display of loose materials such as sand, gravel, lumber, cardboard boxes, pallets, or other similar materials which are subject to being scattered or blown about the premises by normal weather conditions is prohibited.

Commercial establishments are prohibited from cooking outdoors of an enclosed and properly permitted building or structure including, but not limited to, grilling, smoking, frying or other heating or preparation of food, unless specifically approved through the issuance of a special event or temporary use permit.

(c) Propane Tanks for Retail Sales. Notwithstanding the other provisions of this section, propane tanks offered for retail sales will be permitted by right for certain uses in zoning districts which allow retail sales. No additional business tax receipt will be required for

permitted propane tank retail sales; however, the public service tax for the propane tank sales is applicable. A retailer will be considered eligible for propane tank retail sales for the purposes of this Code if the following criteria are met:

- (4) A building permit clearly indicating the dimensions and setbacks of the location of the proposed metal case or propane locker shall be required prior to installation. The maximum capacity of the metal case or propane locker will be used to determine the number of propane tanks which may be offered for sale at a given time.
- (5) The metal case or propane locker shall be located under an overhang and on an accessible route. Installation shall not obstruct the accessible route.
- (6) The Fire Marshall shall review and approve the location of the metal case or propane locker in accordance with NFPA Storage Requirements for LP Gas Cylinders.

SECTION 5. Chapter 16, Zoning Regulations, Article IV, Supplementary District Regulations, Division 1, Generally, is hereby amended by adding section 16-611, as follows:

Section 16-611. - Placement and use of portable storage units.

- (a) Purpose. The purpose of this section is to provide for uniform guidelines for the placement and use of portable storage units.
- (b) Time limitation. - (d) Removal of portable storage units during tropical storm watch or warning and hurricane warning or watch required. In the event the National Weather Service, National Hurricane Center, or appropriate weather agency declares a tropical storm watch or warning or a hurricane watch or warning that may impact the city, all portable storage units located

within the city shall be immediately removed from the residential property so as not to create a safety hazard because of hurricane or tropical storm force winds. The removal and replacement of any portable storage unit pursuant to this subsection shall not count toward the twelve (12)-month limitation period as set forth in subsection (b) above nor shall compliance with this subsection diminish the total number of days allowed.

- (e) A commercial establishment may be permitted by temporary use permit to locate and utilize a portable storage unit at the commercial establishment's premises. Placement and location shall be addressed through the temporary use permitting process.
