The applicant is to explain how the request conforms to the following findings:

- C. That the creation of an isolated district unrelated to adjacent and nearby districts will not occur.

E. That the existing district boundaries are illogically drawn in relation to the existing conditions on the property proposed for change.

F. That changed or changing conditions make the passage of the proposed amendment necessary.

G. That the proposed change will not create or excessively increase traffic congestion or otherwise affect public safety.

H. That the proposed change will not adversely influence living conditions in the neighborhood.

I. That there are substantial reasons why the property cannot be used in accord with existing zoning.

- J. That the proposed change will not constitute a grant of special privilege to an individual owner as contrasted with the public welfare.
